Status: Signed

Editor: Ehlers, Margie, LMSW (SOCIAL WORKER)

Problem: Psychosocial**Goal:** Provide Support & Promote Coping**Intervention:** Request to see Social Work

SW received call from CPS investigator Ericka Davis [REDACTED] who informed SW that the pt's mom has an attorney. Ms. Davis informed SW that the mom's attorney called the CPS Supervisor Arzelia Smith and informed Ms. Smith that the pt's mother no longer wishes to go through with the therapeutic separation. Ms. Davis informed SW that CPS is worried that the pt's mother might come to the hospital to try to get the pt, especially since tomorrow is the pt's birthday.

SW conferred with security and CPT team and confirmed that TCH cannot stop pt's mother from taking the pt without a legal court order. The current safety plan is not enough to stop the pt's mother from taking the pt from the hospital.

If the pt's mother comes to the hospital to see the pt or try to take the pt out of the hospital, please observe the following plan:

1. Call SW immediately and SW will immediately call CPS investigator Ericka Davis and CPS supervisor Arzelia Smith. CPS will come to the hospital as soon as possible and will plan to serve pt's mother with an emergency removal

If SW cannot be reached, please call CPS investigator Ericka Davis [REDACTED] or CPS supervisor Arzelia Smith ([REDACTED]) as soon as possible

2. Call Security and inform them that the pt's mother is at the hospital

3. Per Dr. Graf, *if mother comes and removes Harper against medical advice, PHM will give instructions that include the keppra wean, instructions for speech therapy and bid QVAR.*

SW to remain available as needed

MARGIE EHLERS, LMSW

Plan of Care by Evans, Katie C, LMSW at 09/08/17 1645 (continued)

Version 1 of 1

Goal: Provide Support & Promote Coping

Intervention: Request to see Social Work

UPDATE:

CPS attempted to get a court order for emergency removal today and was unsuccessful as the CPS Attorney will not file it unless mother comes to TCH WC and attempts to take the patient. Mother's lawyer called CPS today and advised mom is no longer willing to honor the voluntary therapeutic separation and CPS suspects mom will come to the hospital in the next couple days to try and take the patient. Plan per CPS and TCH CAP team is as follows:

- Patient still a no information patient (as mother has contacted media) and there is a security alert at the front desk to have security and social work called if mother presents to the hospital
- Mother will be allowed to have contact with the patient and can sign her out AMA, we CANNOT stop her with the safety plan and have no court order to stop mother from taking the patient – plan is to SLOWLY get mother to the floor and to bedside to allow social work and CPS as much time as possible to get CPS to the hospital before mother can take the patient
- If called that mother is on site social work will IMMEDIATELY call CPS Supervisor Azaela Smith [REDACTED] or CPS investigator Ericka Davis [REDACTED] and she will send a local CPS worker to the hospital to serve mother emergency removal paperwork, CPS attorney has instructed that CPS will not serve mother paperwork for removal unless mother comes to the hospital – CPS working to get a local CPS worker that lives in Katy on standby
- Dr. Graf, PHM, WC House Supervisor, 5W Charge Nurse, weekend SW team and Security Team all updated and aware
